

Simply calculate your puppy's date of birth into this chart and you will discover exactly what date the vaccinations and dewormings will be given.

Generally if your puppy departs on the day of or the day before a vaccination due date, the vaccination is given here and marked as DONE on the sheets given to you in the packet of information.

This information sheet is only given in advance to those inquiring and wanting a general idea of our vaccination schedule.

1 wk = 7 days	4 wks = 28 days	7 wks = 49 days	10 wks = 70 days
2 wks = 14 days	5 wks = 35 days	8 wks = 56 days	11 wks = 77 days
3 wks = 21 days	6 wks = 42 days	9 wks = 63 days	12 wks = 84 days

# Days	Administer	Note
In the first week	Dew claws are removed, microchips implanted and if a part of breed standard~ the tails may also be docked.
